The British Columbian.

SATURDAY, OCTOBER 12, 1867.

THE FOURTH PARTY.

Having stated that a certain political clique at Victoria constituted a distinct element in the Grouse Creek strife—were accessories before the fact, and gloated over a culmination which was in part the result of their own machinations, we now proceed briefly to state some of the grounds upon which so grave an accusation is founded. The public Press may be said to be the great political educator of the masses; hence its power for good or for evil, according as it is well or ill directed. Ever since the advent of Governor Seymour among us the Press of Victoria has exhibited a licentiousness seldom if ever equalled in any civilized community. No sooner did it become evident that the new Governor was made to move above all mere local interests and party prejudices, and that there was no prospect of being able to *use* him for the furtherance of a political creed which may be briefly stated as the maintenance of the "great Wen" at the expense of every other interest and every other part—no sooner was this discovery made than the fulminations of a servile and licentious Press burst forth upon his devoted head; his every motive was misjudged, his every act misrepresented. Nor did this tirade of abuse cease with the existence of the Island as a separate colony. On the contrary the proclamation of the act of Union appears to have deen but the signal for more frequent and more virulent abuse. The *Colonist*, the chosen medicine-man and rain-maker for the clique, has for long given his Excellency "an airing every morning," Sundays happily excepted, until it has disgusted every man in the colony who is not wholly estranged from those feelings and sentiments which go to make up the gentleman. Nor did the zealous adjutant of this ragged political regiment stand alone in this "cheap and nasty" warfare. Day after day, during the last legislative session, did not "John and William of Little Pedlington" stand in their place in the House and denounce the Government from top to bottom as a pack of thieves, robbers, official banditti and such like polite names. Is it to be supposed that a long and free indulgence in such a course of vituperative abuse would be without its influence upon the masses? Or was it surprising that a people long accustomed to hear members of the Third and Fourth Estates of the realm holding such language towards those in authority, from the Governor downwards, should think lightly of setting the constituted authority of the country at defiance whenever it might happen to suit their purpose or inclination? To corrupt public sentiment is always more easy than to correct and elevate it. The one goes *with* the current of our nature, the other *against* it. Hence it is that we often find men of the most moderate talents wielding a powerful influence for evil. Thus we claim that a certain clique of political demagogues at Victoria have, in a measure at least, educated the public mind to doubt, despise and insult those in authority, and are, therefore, in a sense, accessories to, and responsible for, the feeling of lawlessness which has recently cropped out in our most important gold-field. For the rest, let any one just wade, or perhaps we should rather say *swim* through the oceans of morbid misrepresentation and abuse with which the columns of the *Colonist* have teamed during the continuance of the unhappy dispute—if, indeed, human patience could prove competent to the ordeal—and say whether the utmost stretch of charity will justify the conclusion that the author of it was actuated by proper, honorable or patriotic motives. It is impossible for any unbiassed mind to arrive at such a conclusion. In the first instance the Governor was abused because he did not have recourse to measures at once the most harsh and expensive, by marching an armed force five hundred miles into the mountain fastnesses of the interior, to compel unconditional submission to a decision which it is no more than just to presume at least some of the parties honestly believed to be wrong both in law and equity. Because the Governor preferred to adopt a mild and conciliatory, and, as the sequel proves, a cheaper and wiser policy he was denounced as puerile, old woman, coward, costermonger, and a thousand and one equally opprobrious epithets, of which the *Colonist* possesses an inexhaustible stock in trade. He was, in short, pronounced by that immaculate authority utterly unfit to hold the reins of Government a day longer than was absolutely necessary for the appointment of a successor. Suppose the opposite course had been adopted by His Excellency, what would have been the position of affairs now? The Colony would have been saddled with a heavy fresh debt—heavier than it could bear. Probably some would have been killed. Possibly some would. But would either of the parties more immediately concerned have been as well satisfied as they are now? Would the country have felt as well pleased? Would even-handed justice have been equally vindicated? The Canadian Company would doubtless have sullenly succumbed to an amount of brute-force they could not withstand; but they would still have harboured an impression that they were the victims of an unjust decision, that they were harshly refused that justice which they appear to have hoped for from a new trial. Nor would they have been without a large amount of public sympathy on their side; for there can be little doubt that public opinion was strongly in favor of giving them a new trial. The new trial they have had; and, while it has taken away from them gold to which they clearly had no right, it has, at the same time, completely deprived them of any ground for complaint or upon which they could possibly construct a grievance with the slightest prospect of being backed up by popular sympathy. If they were honest in believing that the disputed ground was theirs, they must have been effectually undeceived by the new trial, and ought to be, if they are not, content. If they were not honest they have been completely foiled in an attempted raid upon the property of others. In either case the issue is equally satisfactory. But what has the *Colonist* to say about the result of the policy for the adoption of which it has heaped so much abuse upon the Governor? The Grouse Creek difficulty has ended—as we always predicted it would end—gloriously! shouts the whirligig of the *Colonist*, on hearing the result! Does he then take back the abuse he heaped upon the Governor for adopting the course which has brought about the "glorious" result? Not he. Hear how he concludes his jubilation: "We rejoice at the result of this protracted trial, and we rejoice, too, that British Columbia—notwithstanding the weakness and imbecility of the executive—has a pure and incorruptible man like Mr. Needham at the head of its Judiciary." Could inconsistency be more refined—injustice more cowardly? The "weakness and imbecility of the Executive," as he is pleased to term it, was the means, *the only means*, to the end over which he is so jubilant. Had it not been for the "weakness and imbecility (or, to call things by their proper names, the wisdom and firmness) of the Executive," how would it have been possible to have brought Mr. Needham's purity and incorruptibility to bear upon the matter at all? Yet this unscrupulous journalist, while heaping fulsome but most equivocal praise upon the Judge, and magnifying the judgment, withholds, with a grossness peculiar to himself, that meed of credit which the most bitter political opponent would scorn to deny to the Governor, and which no one can but see to be his just due. Not content with thus doubling upon his own track, and coarsely venting his petty spleen upon one whom his words inferentially compliment, this parasite has actually had the audacity to lecture the Editor of the *Cariboo Sentinel* for his reticence upon the subject! The Editor of the *Sentinel*, having a personal interest in the issue, maintained a discreet silence throughout. It would have been much more creditable to the Editor of the *Colonist* had he pursued a similar course

AYER'S

CATHARTIC PILLS.

ARE you sick, feeble, and complaining? Are you out of order, with your system deranged, and your feelings uncomfortable? These symptoms are often the prelude to serious illness. Some fit of sickness is creeping upon you and should be averted by a timely use of the right remedy. Take Ayer's Pills, and cleanse out the disordered humors—purify the blood, and let the fluids move on unobstructed in health again. They stimulate the functions of the body into vigorous activity, purify the system from the obstructions which make disease. A cold settles somewhere in the body, and obstructs its natural functions. These, if not relieved, react upon themselves and the surrounding organs, producing general aggravation, suffering & disease. While in this condition, oppressed by the derangement, take Ayer's Pills, and see how directly they restore the natural action of the system, and with it the buoyant feeling of health again. What is true and apparent in this trivial and common complaint, is almost true in many of the deep-seated and dangerous distempers. The same purgative effect expels them. Caused by similar obstructions and derangements of the natural functions of the body, they are rapidly, and many of them surely, cured by the same means. None who know the virtues of these Pills, will neglect to employ them when suffering from the disorders they cure.

Statements from leading physicians in some of the principal cities, and from other well known public persons.

From a Forwarding Merchant of St. Louis, Feb. 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her.

ASA MORGRIDGE.

As a Family Physic.

From Dr. E. W. Cartwright, New Orleans.

Your Pills are the prince of purges. Their excellent qualities surpass any cathartic we possess. They are mild, but very certain and effectual in their action on the bowels, which makes them invaluable to us in the daily treatment of disease.

Headache, Sick Headache, Foul Stomach.

From Dr. Edward Bird, Baltimore.

DEAR BRO. AYER: I cannot answer you *what* complaints I have *cured* with your Pills better than to say *all that we ever treat with a purgative medicine.* I place great dependence on an effectual cathartic in my daily contest with disease, and believing as I do that your Pills afford us the best we have, I of course value them highly.

PITTSBURG, PA., May 1, 1855.

DR. J. C. AYER, Sir: I have been repeatedly cured of the worst *headache* any body can have by a dose or two of your Pills. It seems to arise from a foul stomach, which they cleanse at once.

Yours with great respect, ED. W. PREBLE, *Clerk of Steamer Clarion.*

Bilious Disorders—Liver Complaints.

From Dr. Theodore Dill, of New York City.

Not only are your Pills admirably adapted to their purpose as an aperient, but I find their beneficial effects upon the Liver very marked indeed. They have in my practice proved more effectual for the cure of *bilious complaints* than any one remedy I can mention. I sincerely rejoice that we have at last such a purgative which is worthy the confidence of the profession and the people.

DEPARTMENT OF THE INTERIOR, Washington, D.C., 7th Feb., 1856.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of that organ. Indeed, I have seldom found a case of *bilious disease* so obstinate that it did not readily yield to them. Fraternally yours, ALEX. T. HALL, M. D., *Physician in the Marine Hospital.*

Dysentery, Diarrhœa, Relax, Worms.

From Dr. J. A. Green, of Chicago.

Your Pills have had a long trial in my practice, and I hold them in estimation as one of the best aperients I have ever found. Their alterative effect upon the liver makes them an excellent remedy when given in small doses for *bilious dysentery and diarrhœa.* Their sugar-coating makes them very acceptable and convenient for the use of women and children.

Dyspepsia, Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among the poor, called to visit in distress. They gradually restore the organs of digestion and purify the blood, they are the best remedy I have ever known, and I can confidently recommend them to my friends. Yours, J. V. HIMES.

WARSAW, Wyoming Co., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Pills in my practice, and find them an excellent purgative to cleanse the system and *purify the fountain of the blood.*

JOHN G. MESACHAM, M. D.

Constipation, Costiveness, Suppression, Rheumatism, Gout, Neuralgia, Dropsy, Paralysis, Fits, &c.

From Dr. J. P. [illegible] Montreal, Canada.

Too much cannot be said in favor of your Pills for the cure of *costiveness.* Many others of your excellent preparations have found them as efficacious as I have, they would join me in proclaiming it for the benefit of those dyspeptics who suffer from that complaint which is productive enough in itself to [illegible] I believe costiveness to be the cause of nine tenths of the ills that afflict that organ and cure it [illegible]

From Rev. J. P. [illegible] and Methodist, Boston.

[illegible] taken at the [illegible] *natural secretions.* They are very [illegible] expel worms. They [illegible] that I recommend [illegible]

From the Rev. Dr. Hamilton, of the Methodist Episc. Church.

PULASKI HOUSE, Savannah, Ga., Jan. 6, 1856.

HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold caught in the performance of duty brought on excruciating *neuralgic pains* which ended in *chronic rheumatism.* Notwithstanding all I had the best of physicians the disease grew worse, [illegible] until by the advice of your excellent agent I [illegible] Dr. Mackenzie. I tried your Pills. Their effect was [illegible] but sure. By persevering in the use of them I am now entirely well.

SENATE CHAMBER, Baton Rouge, La., 5 Dec. 1855.

DR. AYER: I have been entirely cured by your Pills of *Rheumatic Gout*—a painful disease that had afflicted me for years. VINCENT SLIDELL.

☞ Most of the Pills in market contain Mercury, which, although a valuable remedy in skillful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

Price, 25 cents per Box, or 5 Boxes for $1.

Prepared by Dr. J. C. AYER & CO., Lowell, Mass.

MOORE & Co., Agents, Victoria, V. I. Sold by H. W. SMITH and Dr. JONES, New Westminster, and by every dealer in the Colony.

THIS JOURNAL is the oldest newspaper published in British Columbia; it is read by every Intelligent man from New Westminster to the Rocky Mountains, and is universally acknowledged as an advertising medium for this Colony.

DAVID SPENCER, in Victoria, and L. P. FRANK, in San Francisco, are our authorized Agents.

This paper may be read gratuitously in London at the Central Establishment of "THOMAS WEBB'S PILLS AND OINTMENT," 244, Strand, where advertisements and subscriptions for the same are received.

NEW ADVERTISEMENTS THIS DAY.

Burrard Inlet.—W. R. Lewis.
Notice—J. Calder.
Removal—J. Calder.

The British Columbian.

SATURDAY, OCTOBER 12, 1867.

BURRARD INLET—A GRAVING DOCK.

It is with pleasure that we record the arrival of the Admiral, in H. M. S. Sparrowhawk, as the guest of Governor Seymour, and extend to him a cordial welcome amongst us. And while here we avail ourselves of the opportunity of drawing his attention to the advantages possessed by the naturally protected harbour of Burrard Inlet, which we are informed he has just visited, for the construction of an Imperial dry dock. We purpose showing why, in our opinion, Burrard Inlet has superior claims over Esquimalt. Not that we depreciate the importance and capabilities of that acknowledged valuable port. We are willing to admit that for commercial purposes alone Esquimalt is not inferior to our own harbour, and the superior advantage of closer proximity to the sea may be claimed for Esquimalt, thereby enabling vessels belonging to the Merchant Service to reach it with less expense and greater facility. While admitting this much, we cannot but hope that our readers will not attach the odium of selfishness to the object of the present article. We are convinced that, after inspection, the Admiral will pronounce Burrard Inlet one of the finest natural harbours in the world—one indeed that, at a very moderate expense, could be made invulnerable. It does not require the skill of a scientific Engineer to point out the strategic position of the several places offering peculiar facilities for fortifications; and we opine that when an arsenal and dock-yard are constructed that it is of primary importance these subjects should be well and maturely considered. It may be urged that the admitted advantages of Esquimalt in a commercial point of view apply equally to naval interests. But we not only are prepared to deny that this is the case, but to show good and sufficient reasons to the contrary. If we mistake not Great Britain has not a single sailing-ship in Her Majesty's navy; therefore every ship requiring docking for repairs has the means within itself of reaching a dock-yard in Burrard Inlet at the expense of a few hours additional time and a few tons of additional coal. Moreover the natural advantages in favor of Burrard Inlet are very considerable.—Splendid timber, and an almost inexhaustible supply of it to be obtained on the spot. The geological formation is most favorable for such a work, being a soft sandstone, whereas at Esquimalt it is a hard whinstone. We believe localities could be selected at Burrard Inlet where the expense of construction would be at least 50 per cent less than at Esquimalt, both on account of the geological formation, and the facility that exists for utilizing one or more of the numerous never failing streams to raise the ship's keel while in dock to a level on dry land immediately above high-water mark, thus having a double advantage in reducing the cost of construction and the benefit of fresh water on the ship's bottom for any desired period. The rise and fall of the tide at Esquimalt, we learn from Capt. Richard's directions, ranges from six to ten feet, while the rise and fall at Burrard Inlet ranges from twelve to eighteen feet! There is a coal formation underlying Burrard Inlet, and an abundant supply of coal could always be had on the spot. Then, again, there is geographical position. O but, says the advocate for Esquimalt, that is just the strong point against Burrard Inlet. It is out of the way and difficult of access. On this point we would just ask if it is not the policy of both our own and other great nations to have naval dockyards removed from great commercial thoroughfares, in order to avoid influences tending to dissipation and demoralization. Why, for instance, is the California dock-yard at Mare Island, instead of San Francisco? We presume that the construction of a dock by the Imperial Government would be for the use of Her Majesty's Ships, without reference to what is or what is not the interest of any particular locality; and it is just possible there are reasons which do not strike our mind why the dock should not be at Burrard Inlet; but as a public journalist, we consider we should be wanting in our duty did we not urge the careful consideration of this subject before a final decision is made in respect to the site of a public work of such magnitude and importance as the construction of a dock capable of receiving iron clads of a class of which the Zealous is probably one of the smallest. There is another point which we think ought not to be entirely lost sight of. Burrard Inlet is on the mainland, and when the overland road from the Dominion of Canada is built, and when railroad communication connects Halifax and New Westminster it may become a consideration of no small importance that the naval depot and dock yard shall bear a more intimate relation to the Continent than would be possible if they were at Esquimalt. These are matters of grave consideration to the officer entrusted with the selection of a site for an Imperial dry dock that shall possess not only strategic advantages in time of war, but the, perhaps, more important advantages for purposes which must be patent to all, whether landsman or nautical man; and we feel confident that they will receive that attentive consideration at the hands of the Admiral to which their importance entitles them.

MR. WADDINGTON ON SLANDER.—In an article, a few days ago, we copied from Governor Kennedy's dispatches to the Secretary of state, wherein he characterized the School Bill of Vancouver Island as "the prolific parent of expenditure and jobbery." Mr. Waddington, the ex-Superintendent of Education under the system thus alluded to, rushes into the *Colonist* to refute, as he says, this "Gubernatorial slander." In order to do this he adduces instances and figures to show that matters were managed in his department with a niggard, rather than a prodigal hand; but, most singular to say, the ex-Superintendent entirely overlooks the little item of *fifteen hundred dollars* drawn annually by himself and for what? Why, for acting as Superintendent of half-a-dozen of schools, educating an aggregate of less than as many hundred children; We should imagine that the creation of this sinecure would of itself justify the "Gubernatorial slander" complained of.

THE Wesleyan Methodist Conference is being held at Bristol. It visited that city, we learn from the *Bristol Mercury*, for the first time in 1745, and that was but its second session. Then only eleven persons attended, including John and Charles Wesley, the legislator and poet of the sect. This year it visits us for the twenty-ninth time, and probably 500 ministers, scarcely fewer laymen will attend its sessions or preparatory committees. The Rev. Mr. Bedford was elected president, and the Rev. Mr. Farrar secretary, for the ensuing year.

THE Crystal Palace Bible-stand Committee have issued a circular to their subscribers in which they state that already about 1,000,000 books, in fifteen different languages, have been distributed from their stand at the Paris Exhibition. The books distributed have consisted of the seperate gospels and other portions of the New Testament; and the uninterrupted distribution has been carried on with the special permission of the Imperial Commissioners and the police authorities.

EVERY MORNING AT 10.—It will be observed by reference to our advertising colums that Mr Lewis' covered stage will start every morning at 10 oclock for Burrard Inlet, leaving Brighton at 3 p.m. for New Westminster.

THE EXHIBITION COMMITTEE meets at 2 o'clock this p.m., when a full attendance is particularly desirable.

AGRICULTURAL EXHIBITION.

The Committee held a special meeting on Thursday. The Corresponding Secretary informed the Committee that a reply had been received from His Excellency the Governor, stating that he would have very great pleasure in acting as Patron of the movement, and also expressing a desire to place a sum of money at the disposal of the Committee for prizes. The Committee proposed the following disposition of the money:—

Best Butter (Fresh)	1st prize	$5 00
Second " "	2d "	2 50
Best Cheese		2 50
Malting Barley, best 4b'l.	1st p.	3 00
" 2d "	2d p.	2 00
Fowls, best pair,		2 50
Turkeys, best,		2 50

The sum of $5, given by A. T. Bushby Esq. to be disposed of as follows:—

Best barrel of salmon (pickled)	$3
2d " " "	2

The sum of $10, given by the Chairman, (Mr. Robson) to be disposed of as follows:—

For the best collection of fruits	$5
" " " vegetables	5

Committee adjourned.

HOW A TRAITOR WAS RECEIVED BY HIS WIFE.—Col. Miguel Lopez, the traitor who betrayed the Emperor Maximilian, recently went to Pueblo to visit his wife. His reception was decidedly cold. His wife advanced to meet him, leading their little son by the hand, and addressed him thus: "Sir, here is your son; we cannot cut him in two, take him. You are a base coward and traitor. You have betrayed your country and your benefactor. From this hour we are strangers, for I shall this day retire to my family."

ARRIVAL OF THE ADMIRAL.—H. M. S. Sparrowhawk arrived in our outer harbour of Burrard Inlet on Wednesday with Admiral Hastings and suite on board. The Admiral came over in Lewis' stage, on Wednesday evening, and Capt. Cooper brought the Sparrowhawk round and came to anchor opposite Goverment House on Thursday. The Admiral is still at Government House, the guest of his Excellency.

SATURDAY, OCTOBER 12, 1867.

THE BUOYS, &C.

The single circumstance of H. M. Ship Sparrowhawk, drawing twelve feet of water, having steamed into our harbour at three-quarters flood, on Thursday, without experiencing the slightest difficulty, constitutes the best refutation of the miserable slander sought to be cast upon the character of our navigation. To assert that the Sparrowhawk has been prevented from coming here on account of the buoys being out of position is a wanton aspersion upon the natural facilities for entering our magnificent harbor, which could only have been prompted by "a miserable feeling of jealousy." No considerations of this kind can, however, absolve the Government from the responsibility resting upon it with respect to the replacement of the channel marks. If the expenditure necessary to place them there in the first instance was at all justified—and, we apprehend, none but an enemy to the Colony would venture to deny that—surely the trifling expense necessary to keep them in position becomes a duty. We believe we are correct in stating that the expense of keeping the iron buoys in order would not be more than a fourth of what it cost under a former administration to maintain the miserable wooden channel marks. The statement put forward the other day, through a very unreliable medium and in anything but an amiable spirit, to the effect that the arrangements for adjusting the buoys were completed and that it was now too late to say anything upon the subject, is, we regret to learn from the Harbor-master, altogether a mistake. We would, therefore, again impress upon the Executive the duty of immediate attention to this matter.

WILL BE THERE.—A deputation, consisting of the Chairman of the Exhibition Committee (Mr. Robson) the Rev. Mr. Hayman and Charles Good, Esq., waited upon Admiral Hastings, yesterday, to invite him to be present at the Exhibition, next week. He informed the deputation that matters of importance required his immediate presence at Esquimalt, but that he would, if possible, return again on Tuesday, in order to be present at the Exhibition. He was good enough to promise that, in the event of not being able to come up himself, he would send the Sparrowhawk with any of his officers who might desire to come, expressing, at the same time, his deep interest in the movement.

ARRIVING.—Several packages for the Exhibition arrived by the steamers yesterday, amongst which were two packages from Ashcroft Farm. Mr. Barnard and Messrs. Dietz and Nelson are giving the free use of their expsesses for the transmission of articles.

ERRATUM.—A typographical error crept into our leading article, on Wednesday, which made us refer to the 7th and 9th Commandments, instead of the 8th and 10th. Fortunately the error was detected before many copies were struck off.

CIVIC ADDRESS.—The Municipal Council held a special meeting last evening, when they voted an address to Admiral Hastings. We hope to publish a copy of the address and reply in our next.

GOING AWAY.—H. M. S. Sparrowhawk will sail for Esquimalt at 10 this morning, with Admiral Hastings and suite.

THE LAST PLUMS OF THE SEASON.—What's more delicious than a plum pudding? Why, a plum pie or plum preserves. Those wanting fresh plums call at Clarkson's new Grocery and lay in a supply as these are the last of the season; 400lbs. just received from the celebrated Richmond Orchard. Just think of a delicious plum pie and then—*hyack* and *ticky*. *

BY EXPRESS FROM LONDON DIRECT.—We would call the attention of the ladies to the large and really choice Stock of Ladies underclothing which has just been received per last Express direct from London, and for sale at very reasonable prices at the Store of Mr. Clute, Columbia Street. *

FROM CARIBOO.

The steamers Lillooet and Onward arrived from Yale yesterday. The former brought down a number of passengers, amongst whom was Mr. Barnard with $81,000 of treasure belonging to the Banks. The Onward brought down a considerable number of passengers, amongst whom was Judge Needham. We have files of the *Sentinel* of the 30th ult. before us; but they contain very little news. Owing to the scarcity of water very little mining was being done on the principal creeks, so that there is really no mining news of the slightest importance.

The Discovery appears to have been made that Wilson "sold" his backers in the late fight, having had a pecuniary arrangement with Eden to that effect. The discovery evokes much indignation.—Williams, the prisoner who escaped from jail, some months ago, was discovered by Constable Fitzgerald lurking in a house at Richfield and was secured by him.—Judge Needham, while in Cariboo, rendered judgment in a case between the Williams Creek Bed Rock Flume Co. and one Symon, which appears to have given great satisfaction.

IMPORTANT SALE.—We would call the attention of the public especially the farmers, to the advertisement of pigs &c., advertised to come off Tuesday next. Several of the pigs are of a superior imported breed.—See advertisement elsewhere.

TELEGRAPHIC.

EUROPE.

LONDON, Oct. 4.—Garibaldi having refused to give his parole, the Italian Government in order to allay the popular excitement, sent him to Caprera and set him at liberty. Soon after his arrival he suddenly disappeared from the Island and succeeded in reaching the mainland. His movements were watched again and he was arrested and is now under close guard at Caprera.

Midnight.—A dispatch from Florence says insurgents are in strong position at Bigrosa in Vitarbo. They were attacked by Papal troops; there was a short sharp fight and the attacking party was defeated; loss not stated.

At a public meeting of Garibaldians yesterday, revolutionary speeches were made by distinguished persons; similar meetings will be held in other cities. Garibaldi has issued a stirring address at Caprera, reciting the grievances of Italy, and urging his friends to march forthwith to Rome.

Oct. 5.—The authorities received advices of a Fenian attack on armories. On the night it was expected, troops were posted at the threatened place. The precautionary measures prevented outbreak.

The *Standard*, in a leading editorial, says the general arming of France excites apprehensions of a winter campaign.

Oct. 7.—It is said that Lord Derby will soon resign the Premiership.

The *Times* says, Edward Thornton, the present Minister at Rio, will be appointed Ambassador to the United States.

The pioneer steamer of the Abyssinian expedition has already sailed.

FLORENCE, October 6.—Dispatches from Rome say the greatest alarm prevails in that city. Deputations are arriving there and memorials pouring in from all parts of the Kingdom, demanding that Rome be made the capital of Italy. The Press throughout the country is urging subscriptions for Garibaldians who have been wounded in fights at Viturbo.

PARIS, October 6.—It is reported that Napoleon has informed the Italian Government that it may occupy the Roman territory with troops, but must not enter Rome.

October 7.—Achille Fould, the eminent statesman and financier, died yesterday, aged 67.

A report is current that Prussia receives with favor the appeal of Italy to European Powers against the treaty of September, and will support the demands of Italy with regard to Rome.

EASTERN STATES.

NEW YORK, October 5.—Monetary panic has apparently ceased for the present. Opinion prevails that the money market will be easier next week.

A congressman, who is a member of the Fenian Organization, bought a steamer of the Government by auction, at Brooklyn, recently, which is admirably adapted to blockade running. Suspicious crafts reported by cable are supposed to be vessels which left this port seven weeks since.

New York special says that Grant anticipates soon being relieved from the War Office.

WASHINGTON, Oct. 5.—The *Times'* special says that Grant contradicts the statement that he had expressed willingness to run for President if nominated.

CALIFORNIA.

SAN FRANCISCO, Oct. 10—The squatter difficulty culminated in a riot last night, during which one man was killed and three others wounded. The squatting party retained possession. They were arrested on charge of murder and admitted to bail in $10,000 each. The attacking party were arrested on charge of assault with intent to commit murder, and gave $10,000 bail each.

MARKETS.

Legal Tenders, 69½@70.

NEW YORK, Oct. 9, 3 p. m.—Gold closed at 1 43. Eastern line down beyond Julesburg at 5 30 p. m.

OREGON.

PORTLAND, October 10.—The str. Fideliter sailed at 5:30 p. m. yesterday having on board James Gamble, General Superintendent of the telegraph lines on this coast, and the following freight;—2680 sacks flour, 152 sacks wheat, 350 sacks bran, 225 boxes fruit.

CANADA.

NEW YORK, Oct. 5.—A Montreal special says a great fire is raging at St. Johns, near Rouses point. It is reported half the town is destroyed. The authorities have sent engines and firemen to the relief of the town.

GOOD ACCOMMODATION—Travellers to Cariboo this season will find most comfortable quarters at the Colonial Hotel, Soda Creek, the enterprising proprietors Messrs. McLeese & Senay being prepared to afford to those who may favor them with a call increased accommodation at a much less cost than hitherto. *

If you wish the very best CABINET PHOTOGRAPHS, you must call on BRADLEY & RULOFSON, 429 Montgomery street, San Francisco.

HOLLOWAY'S OINTMENT AND PILLS.—Vexation Avoided.—This Ointment is the most powerful agent for the healing of wounds, old ulcers, indolent sores, and all strumous diseases of the skin, which, from local or constitutional causes, have hitherto resisted all ordinary modes of treatment. Holloway's Ointment, rubbed upon the abdomen, and aided by a judicious course of his Pills, acts miraculously on the digestion, and obviates all those obstructions of the mesenteric glands, known by the pallor, attenuation, and gradually increasing weakness of the sufferer. The combined effects of the Ointment and Pills are irresistible in all long-continued diseases, which ever produce disarrangement of the digestion, circulation, and glandular system. Holloway's remedies are suitable for all ages and conditions, for all climates and constitutions.

WHAT'S more pleasing to the sight and taste than good, clean, sweet, fresh butter. If you want any from Betts' celebrated dairy, call at Clarkson's new Grocery and get some. *

NOTICE.

ALL parties indebted to Dr. Black are hereby notified that unless their accounts are paid or arranged before the 1st day of June next, immediate proceedings will be taken.

THE CHEMISTRY OF MEDICINE.—Among the special delights which have so richly repaid our visit to New England was the inspection, it was our privilege to make, of Dr. J. C. Ayer & Co.'s Laboratory at Lowel. Although we knew by hearsay, that it was large, yet we were surprised when we came into view of its real magnitude, and still more by the extent and complication of its truly immense business. The whole massive structure is in fact one vast chemical laboratory, in which the processes of this wonderful art are continually going on. Medico-chemical science has found that the curative properties of any substance exist in some one or more of its component parts. Thus the remedial effects of opium are due solely to the morphia it contains, although this is but one eighteenth part of its weight; the other seventeen parts are gum, extractive and inert or offensive matter. Dr. Ayer's system separates the medical properties of each substance employed and we are here shown the processes by which the *virtues* of each remedial agent are chased through the alembics until they come out completely pure at last. These concentrated, purified medical properties, or virtues, are finally combined together to produce the remedies which have made themselves a reputation for unrivalled excellence all over the world. Not only does the Doctor disclaim all secrecy in his art and explain every process and every particular, but he maintains that this is the only process by which the people can be supplied with the best possible remedies for the treatment of disease.—The formula by which his remedies are made, are published in the medical Journals and have been presented to a large part of the medical Faculty of the United States, and are constantly sent by mail to such physicians as apply for them.—*Daily Chronicle*, San Francisco.

ROYAL INSURANCE Co.

THE Directors of the Royal Insurance Company beg to notify the inhabitants of New Westminster and its vicinity, that in consequence of the retirement of Mr. Arthur Bullock, they have this day, by their Attorney, Gilbert Malcolm Sproat, appointed Messrs. Cunningham, Bros., Agents of the Royal Insurance Company for this District.

They are now prepared to receive proposals for Insurance and accept all classes of Fire Risks on the most favourable terms.

GILBERT MALCOLM SPROAT,

Agent for Vancouver Island and British Columbia.

Royal Insurance Office, Victoria, July 22d 1867.

In reference to the above we beg to announce to the public that we are now prepared to effect Insurances upon the most liberal terms.

The Company which we represent has a Capital of TEN MILLION DOLLARS and now enjoys the largest income of any Company in the world, and is in every respect the most safe and satisfactory.

GO TO

THE NEW

GROCERY STORE

COLUMBIA STREET,

NEW WESTMINSTER B. C.

Where you will find everything in the GROCERY line, the best and cheapest, for CASH, to be had in the CAPITAL.

Our Coffee, Tea and Chocolate, for flavor unsurpassed; with prices low, to suit the times, a trial's only asked. To those who use the "weed," we are willing, ready, able to furnish them with any length of the "Atlantic Cable." We've "Shelton's Brand," and other kinds so much admired for chewing; Cigars, Cheroots, and Fancy Pipes, for gents who go awooing. Of Pie Fruits and of Pickles too, we have every kind on hand; with sauces also, pure and good, of every different brand. In Ketchups and in Essences, our shelves are quite replete; these have become *essential* for flavoring what we eat. Split Peas and Pearl Barley, most excellent for soup; and Sago for the little folks, an antidote for croup. Stove polish—what so nasty as a rusty metal stove? Shoe-blacking too of a glossier hue than silk or satin e'er wove. Wash Tubs and Wash Boards too we have, no better made, we think, nor cheaper can be had elsewhere, in either wood or zinc. Of Buckets we have quite a lot; as well as, fine corn Brooms, and brushes plenty, no excuse for keeping dusty rooms. To the Sportsman we can offer a well-selected lot of gun-caps and of powder too, and every size of shot. Our candles, they are very good our coal oil choice refined, no one here will sell them cheaper; just bear this fact in mind. Our soap is also good and cheap, and old—we don't like new; with Glenfield starch so highly famed, and the best of button blue. Biscuits of various kinds we have, and crackers crisp and sweet: bacon and hams, so nicely cured, they really *are* a treat. Our sugars, we are safe to say, must meet a large demand, because they're bright and sweet and pure, nor mixed with gritty sand. We have oatmeal too for porridge, or, if you prefer it,—brose, this is the food both strong and good as every SAXON knows.

Spices from the isles of the Indian seas; cloves, cassia, pimento, and such things as these; melons that will melt of themselves in the mouth; peaches and grapes from the far sunny South; currants from Zante, raisins from Spain, will tempt you to buy them again and again. Plums and apples from "Richmond," pears from the Sound; onions from Frisco so big and so round that few, if any, weigh less than a pound. We purchase farm produce, pay in goods or in cash; sell again at slight profits, just to free us from loss. To those who are either "on the buy," or "the sell," just step in next door to the Colonial Hotel; our goods are for sale we invite your inspection, convinc'd when once here you will make your selection, and always return for such things as you need.—Fair play—honest dealing, a part of our creed.

WILLIAM CLARKSON.

NEW WESTMINSTER.

September 14th 1867. fc

CURE IS AT HAND!

HOLLOWAY'S OINTMENT

Scorbutic Eruptions, as Sore Heads and Scrofulous Swellings.

If this powerful Ointment be well rubbed into the parts affected, all skin disease will be speedily overcome. It acts not by repression, but repulsion. It enters the system as salt enters meat, and operates not locally only, but constitutionally purifying the whole system, neutralising all depraved humours, and affecting a radical and complete cure. The Pills should be taken as an auxiliary to the Ointment, as they are so prepared as to act in unison with it, facilitating and confirming the conquest of the disease.

Diptheria, Ulcerated Sore Throat and Quinsey.

The above complaints have for twenty years been treated with Holloway's Ointment and Pills with complete success. The cures have been so remarkable, speedy and numerous, that these often fatal diseases are more easily cured by these medicines, than even the common sore throat, if taken in time.

The Kidneys, Stone and Gravel.

In these complaints, the Ointment almost acts like a charm, providing it is very effectually rubbed over the regions of the kidneys, which it will penetrate and give almost immediate relief, while the Pills should be taken according to the printed directions, when the most extraordinary cures may be effected by this means.

Bad Legs, Bad Breasts, Scrofulous Sores, and Glandular Swellings.

In such cases the Ointment operates surely and with a rapidity that resembles magic. It should be rubbed into the parts affected, after they have been fomented with lukewarm water. The purifying and curative powers of this marvellous unguent have never failed. Any old sore, wound or ulcer always yields to its influence, and in cases of bad breasts, or milk fevers, its action is wonderful. Glandular swellings may soon be reduced by following the printed directions.

The Action of the Heart. Dropsy.

The last named disease is commonly preceded by irregular action of the heart, and difficult respiration; which symptoms are always severe, and over go from bad to worse, unless proper means of cure are resorted to. In Holloway's unrivalled Ointment and Pills the dropsical patient will ever find succour; the present relief derived from the use of these remedies is marvellously quick, and perseverance in the application of this famous Ointment, invariably results in a cure. They act with such energy on the circulation and absorbent system, that the dropsical fluid vanishes, and the sufferer finds all the oppressive symptoms daily decline, till natural health returns.

Gout and Rheumatism.

May be cured with the greatest certainty if large quantities of the Ointment be well worked into the complaining parts, and this perseveringly done for some time. It is no use to smear it on the skin only, it must be got into the system. Take as many Pills nightly as will act two or three times during the 24 hours; eschew the use of coffee, and all stimulants. When these complaints are leaving the system, the virulence of the complaint frequently seems to increase.

Indiscretion of Youth.

Sores, ulcers and swellings can with certainty be cured if this Ointment be thoroughly rubbed all round the complaining parts twice or thrice a day, keeping them covered with linen rag spread with the same.

The Pills must be taken according to the printed directions. The blood being in an impure state, perseverance is necessary. From humane motives letters of advice will be answered gratuitously. To save carriage the Pills should be obtained in the neighborhood of the sufferer, and not from Holloway's Establishment.

Both the Ointment and Pills should be used in the following cases:—

Bad Legs,	Chapped hands,	Scalds,
Bad Breasts,	Contracted and	Sore Nipples,
Burns,	Stiff Joints,	Sore-throats,
Bunions,	Elephantiasis,	Skin-diseases,
Bite of Mosquitoes	Fistulas,	Scurvy,
and Sand-flies,	Gout,	Sore-heads,
Coco-bay,	Glandular	Swellings, Tumors,
Chiego-foot,	Swellings,	Ulcers,
Corns (soft),	Lumbago,	Wounds,
Cancers,	Piles,	Yaws.
Chilblains,	Rheumatism,	

Sold at the establishment of PROFESSOR HOLLOWAY, 244, Strand, (near Temple Bar) London; and by all respectable Druggists and Dealers in Medicines throughout the civilized world, at the following prices:—1s. 1½d., 2s., 9d., 4s. 6d., 11s., 22s., and 33s., each Pot.

*** There is a considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of patients in every disorder are affixed to each Pot. delly

AYER'S Sarsaparilla

FOR PURIFYING THE BLOOD.

And for the speedy cure of the following complaints: Scrofula and Scrofulous Affections, such as Tumors, Ulcers, Sore Eyes, Scrofulous Humors, Pimples, Pustules, Blotches, Boils, Blains, and all Skin Diseases.

OTTAWA, Illinois, April 24, 1859.

J. C. AYER & Co.: Gentlemen—I feel bound in duty to acknowledge what your Sarsaparilla has done for me. Having inherited a scrofulous constitution, I have suffered from it in various ways and forms. Some years it burst out in ulcers on my hip, which was painful and dangerous. It turned inward and threatened my life. Some years ago it broke out on the back of my neck, in my scalp and ears with the same, which was painful and loathsome beyond description. I tried many doctors and several physicians, but without much relief from any thing. In fact, the disease grew worse. Although I was subject to read in the Gospel Messenger that you had prepared an alterative (Sarsaparilla), yet I knew from your reputation that any thing you made must be good. I sent to Cincinnati and got it, and then it relieved me. I took it, as you advise, in small doses at a teaspoonful over a month, and took almost three bottles. Now a healthy skin soon began to form under the sores, which after a while fell off. My skin is now clear, and I know by my feelings that the disease has gone from my system. You can well believe that I feel what I am saying when I tell you, that I hold you to be one of the benefactors of mankind, and remain ever gratefully,

Yours, ALFRED G. FALLEY.

St. Anthony's Fire, Rose or Erysipelas, Tetter and Salt Rheum, Scald Head, Ringworm, Sore Eyes, Dropsy.

Dr. Robert M. Preble writes from Salem, N. Y., 12th Sept., 1859, that he has cured an inveterate case of *Dropsy*, which threatened to terminate fatally, by the persevering use of our Sarsaparilla, and also a dangerous *Malignant Erysipelas* by large doses of the same; and he cures the common *Scrofula* by it so roughly.

Bronchocele, Goitre or Swelled Neck.

Zebulon Sloan of Prospect, Texas, writes: "Three bottles of your Sarsaparilla cured my wife of a large and hideous swelling on the neck which had existed from over two years."

Leucorrhœa or Whites, Ovarian Tumor, Uterine Ulceration, Painful Menstruation.

Dr. J. B. S. Chasing, of New York City, writes: "I most cheerfully comply with the request of your agent in saying I have found your Sarsaparilla a most excellent alterative in the numerous complaints for which we employ such a remedy, but especially in chronic diseases of the Scrofulous class. In Leucorrhœa, and many inveterate cases of Leucorrhœa, by its exclusive use, where the complaint was caused by ulceration of the uterus, the ulceration itself was soon cured. Nothing within my knowledge equals it for these troubles."

Edward S. Murray, of Fairfield, Ala., writes, "A dangerous ovarian tumor, for which I had tapped three in my family, which had defied all the remedies we could employ, has at length been completely cured by your Extract of Sarsaparilla. Our physician thought nothing but extirpation could afford relief, but he advised the trial of your Sarsaparilla as the last resort before cutting, and it proved sufficient. After taking the remedy eight weeks no symptom of the disease remained."

Syphilis and Mercurial Disease.

NEW ORLEANS, 27th August, 1859.

DR. J. C. AYER: Sir, I cheerfully comply with the request of your agent, and report to you some of the effects I have realized with your Sarsaparilla.

I have cured with it many very severe cases of the complaints for which it is recommended, and have found its effects truly wonderful in purifying the system after *Mercurial Disease*. In one of these patients had syphilitic ulcers in his throat, which were threatening his palate and the top of his mouth. Your Sarsaparilla, steadily taken, cured him in five weeks. Another was attacked by secondary symptoms in his nose, and the ulceration had eaten away a considerable part of it, so that I believe the character would soon reach his brain and kill him. But it yielded to my administration of your Sarsaparilla. The ulcers healed, and he is well again, but of course with some disfiguration to his face. A woman who had been treated for the same disorder by mercury was suffering from this poison in her bones. They had become sensitive to the weather that was damp and she suffered excruciating pain in her legs like a rheumatic. She, too, was cured entirely by your Sarsaparilla in a few weeks. I know from its formula, which you kindly gave me, that this Preparation from your laboratory must be a great remedy; consequently, its truly remarkable results with it have not surprised me.

Fraternally yours, C. V. DARDIER, M. D.

Rheumatism, Gout, Liver Complaint.

INDEPENDENCE, Preston Co., Va., 4th July, 1859.

DR. J. C. AYER: Sir, I have been afflicted with rheumatism chronic *Rheumatism* for a long time, which defied the skill of physicians and took hold of me after all the remedies I could find until I tried your Sarsaparilla. One bottle cured me and in two weeks [illegible] my general health so much that I [illegible] JOHN FRIEL.

Jules S. Getchell, of St. Louis, writes: "I have been afflicted for years with a complaint of the liver, which destroyed my health. I tried everything that failed to relieve me, and I was given up by my friends for some years. Some time after I commenced taking your Sarsaparilla, I found that it was the very thing for the liver. My beloved pastor then advised me to try your Sarsaparilla for my impoverished blood, and any thing you may do, I will say that the blessing of God is the cause, under Him, of your Sarsaparilla having made a new man of me. I will say, in conclusion, that it has been that can be said of good, and not be ashamed of it."

Scirrhus, Cancer, Tumors, Enlargement, Ulceration, Caries and Exfoliation of the Bones.

A great variety of cases have been reported to us where cures of these formidable complaints have resulted from the use of this remedy, but our space here will not admit them. Some of them may be found in our American Almanac, which the agents below named are pleased to furnish gratis to all who call for them.

Dyspepsia, Heart Disease, Fits, Epilepsy, Melancholy, Neuralgia.

Many, remarkable cures of these maladies have been made by the alterative power of this medicine. It stimulates the vital functions into vigorous action, and thus overcomes disorders which should be supposed beyond its reach. Such a remedy has long been required by the physicians of the people, and we are confident that this will do for them all that medicine can do.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the Relief of Consumptive Patients in advanced Stages of the Disease.

This is a remedy so universally known to surpass any other for the cure of throat and lung complaints that it is useless here to publish the evidence of its virtues. Its unrivalled excellence for coughs and colds and its truly wonderful cures of pulmonary disease have made it known throughout the civilized regions of the earth. Few are the communities, or even families, among them who have not some personal experience of its effects—some living trophy in their midst of its victory over the subtle and dangerous disorders of the throat and lungs. All know the dreadful fatality of these disorders, and as they know, too, the effects of this remedy, we need not do more than to assure them that it has now all the virtues that it did have when making the cures which have won so strongly upon the confidence of mankind.

S.T-1860-X.

"Jes' so!"—"Exactly!"—Solon Shingle said; they were there "every time." If he felt "owley" in the morning, he took Plantation Bitters; if he felt weary at night, he took Plantation Bitters; if he lacked appetite, was weak, languid or mentally oppressed, he took Plantation Bitters; and they never failed to set him on his pins square and firm.

A few bottles of PLANTATION BITTERS

Will cure Nervous Headache,
" Cold Extremities and Feverish Lips,
" Sour Stomach and Fetid Breath,
" Flatulency and Indigestion,
" Nervous Affections,
" Excessive Fatigue and Short Breath,
" Pain over the Eyes,
" Mental Despondency,
" Prostration; Great Weakness,
" Sallow Complexion, Weak Bowels, &c.

Which are evidences of

LIVER COMPLAINT AND DYSPEPSIA.

After a long research, we are able to present the most present the most remarkable cure for these horrid nightmare diseases, the world has ever produced. Within one year over six hundred and forty thousand persons have taken the Plantation Bitters, and not an instance of complaint has come to our knowledge!

It is a most effectual tonic and agreeable stimulant, suited to all conditions of life.

The report that it relies upon mineral substances for its active properties are wholly false.

The original quality and high standing of these goods will be sustained under every and all circumstances. They have already obtained a sale in every town, village, parish and hamlet among civilized nations. Base imitators try to come as near our name and style as they can, and because a good article cannot be sold as low as a poor one, they find some support from parties who do not care what they sell. Be on your guard. See our private stamp over the cork.

Barnes' Magnolia Water.

A toilet delight! The ladies' treasure and gentlemens' boon! The "sweetest thing" and largest quantity. Manufactured from the rich Southern Magnolia. Used for bathing the face and person, and to render the skin soft and fresh, to prevent eruptions, and to perfume clothing, &c.

It overcomes the unpleasant odor of prespiration.
It removes redness, tan, blotches, &c.
It cures nervous headache and allays inflammation.
It cools, softens, and adds delicacy to the skin.
It yields a subdued and lasting perfume.
It cures musquito bites and sting of insects.
It contains no material injurious to the skin.

It is what every lady should have. Sold everywhere. Try the Magnolia Water once and you will use no other Cologne, Perfumery, or Toilet Water afterwards.

Sold by Druggists and Dealers everywhere.

DEMAS BARNES & CO.,
se19 Props. Exclusive Agents, N. Y.

Lyons' Kathairon.

It is a most delightful Hair Dressing.
It eradicates scurf and dandruff.
It keeps the head cool and clean.
It makes the hair rich, soft and glossy.
It prevents the hair turning grey and falling off.
It restores hair upon prematurely bald heads.

This is just what Lyon's Kathairon will do. It is pretty—it is cheap—durable. It is literally sold by the car load, and yet its almost incredible demand is daily increasing, and there is hardly a country store that does not keep it, or a family that does not use it.

se19 E. THOMAS LYON, Chemist, N. Y.

Lyons' Extract Ginger.

LYONS' EXTRACT OF PURE JAMAICA GINGER—for Indigestion, Nausea, Heartburn, Sick Headache, Cholera Morbus, Flatulency, &c., where a warming stimulant is required. Its careful preparation and enire purity make it a cheap and reliable article for culinary purposes. Sold everywhere, at fifty cents per bottle. Ask for "Lyon's" Pure Extract. Take no other. See that the private U. S. Stamp of Demas Barnes & Co., is over the cork of each package. None other is genuine. se19

Mustang Liniment.

Have you a hurt child or a lame horse? Use the Mexican Mustang Liniment.

For cuts, sprains, burns, swellings and caked breasts the Mexican Mustang Liniment is a certain cure.

For rheumatism, neuralgia, stiff joints, stings and bites, there is nothing like the Mexican Mustang Liniment.

For spavined horses, the poll evil, ringbone and weeney, the Mexican Mustang Liniment never fails.

For wind galls, scratches, big-head and splint, the Mexican Mustang Liniment is worth its weight in gold.

Cuts, bruises, sprains and swellings, are so common and certain to occur in every family, that a bottle of this Liniment is the best investment that can be made.

It is more certain than the doctor—it saves time in sending for the doctor—it is cheaper than the doctor, and should never be dispensed with.

"In lifting the kettle from the fire, it tipped over and scalded my hands terribly. * * The Mustang Liniment extracted the pain, caused the sore to heal rapidly, and left very little scar.

CHAS. FOSTER, 420 Broad St., Phila.

Mr. S. Litch, of Hyde Park, Vt., writes: "My horse was considered worthless, (spavin,) but since the use of the Mustang Liniment I have sold him for $150. Your Liniment is doing wonders up here."

All genuine is wrapped in steel plate engravings, signed G. W. Westbrook, Chemist, and also has the private U. S. stamp of Demas Barnes & Co. over the top. Look closely. Sold by all Druggists, at 25, 50 cts., and $100. se19

Lyons' Flea Powder.

DEATH TO FLEAS.—It is well known that Lyon's genuine Magnetic Powder, will perfectly destroy everything in the shade of fleas, ticks, bed-bugs, roaches, &c.; that it is perfect poison to the insect tribe, but entirely harmless to the human species and domestic animals. The genuine has the signature of E. Lyon, and the private stamp of Demas Barnes & Co. Anything else of this kind is an imitation or counterfeit. Any druggist will procure the genuine if you insist you will have no other. se19

MAGNOLIA WATER,
LYON'S KATHAIRON

All the above articles for sale by H. W. SMITH and Dr. M. JONES Druggists, &c., New Westminster, B. C. and every dealer in the colony se19

ADVICE GRATIS!

HOLLOWAY'S PILLS

To Purify the Blood.

These Pills have been placed by the common consent mankind at the head of all remedies for removing obnoxious poisons from the blood, and cleansing all the tissues of the body. They have saved thousands year after year from falling a sacrifice to the effects of dyspepsia, dysentary, diarrhœa, constipation, liver complaints, &c., as attested by myriads of witnesses. Excessive weakness and debility, the warnings of decreasing organic energy and vital decay, are restored and reanimated with vigor and healthful action in every organ throughout the system, by the restorative and exhilirating influence of this medicine.

Female Complaints.

All disorders of the sex, and diseases in every way perilous to the life and health of woman, youthful or aged, married or single, may be radically and quickly cured without risk or trouble, by a few doses of these Pills, taken according to the printed directions.

Indigestion with languor and want of energy.

When taking these Pills, rub Holloway's celebrated Ointment over the pit of the stomach, and over the region of the liver, on the right side under the ribs, and you will at once experience a change for the better in your digestion, spirits, appetite, strength, and energy. The improvement, though it may be gradual, will be thorough and lasting.

DROPSY.

The efficacy of Holloway's Pills in dropsy is extraordinary. They act with such peculiar effect upon the system, that the fluids arising from this direful disease are imperceptibly carried off and prevented from any further accumulation. The sufferer regains a buoyancy of spirits and rejoices in a completely renovated constitution; but it is indispensably necessary that the Ointment should be more effectually rubbed into the complaining parts.

Stomach, Liver, Kidneys and Bowels.

Those who suffer from bile and liver complaints, should try the effects of this valuable remedy, a few doses of which will make the sufferer feel elastic and vigorous, removing all impurities, giving a healthy action to the liver; if bilious attacks be allowed to continue, serious casualties may arise, and the sufferer be consigned to a bed of sickness. In all disorders of the kidneys, the Ointment should be well rubbed into the small of the back, once or twice a day; and the Pills taken in unison, will cure any complaints arising from these organs.

Puffy,—Shortness of Breath with Weakness.

Very bad symptoms, which if not corrected, may lead to some serious disorders of the heart, or other vital organs. Eat moderately of solids, take six Pills nightly, or some little time; take plenty of fresh air with moderate exercise, and the human machinery will be quickly restored to health and vigor. Try this but for three days only, and the result will be marvellous.

Complaints incident to Children.

All complaints of children may soon be cured if care be taken to purify their blood, correct the action of the liver, and cleanse the stomach and bowels: a few doses of these famous Pills will immediately have the desired effect, particularly if parents be careful in not allowing them to eat of things which they know would be injurious to themselves.

Holloway's Pills are the best remedy known in the world for the following diseases:—

Ague,	Female Irregularities,	Scrofula, or King's Evil.
Asthma,	Fevers of all kinds,	Sore Throats,
Bilious Complaints,	Fits,	Stone and Gravel,
Blotches on the Skin,	Gout,	Secondary Symptoms,
Bowel Complaints,	Head-ache,	Tic Douloreaux,
Colics,	Indigestion,	Tumours,
Costipation of the Bowels,	Inflammation,	Ulcers,
Consumption,	Jaundice,	Venereal Affections,
Debility,	Liver Complaints,	Worms of all kinds.
Dropsy,	Lumbago,	Weakness from whatever cause, &c., &c.
Dysentery,	Piles,	
Erysipelas,	Rheumatism,	
	Retention of Urine,	

Sold at the establishment of PROFESSOR HOLLOWAY, 244, Strand, (near Temple Bar) London; also by all respectable Druggists and Dealers in Medicines throughout the civilized world, at the following prices:—1s. 1½d., 2s. 9d., 4s. 6d., 11s. 22s., and 33s., each Box.
